

**CERNER COMPUTER DOCUMENTATION**

# Opening a Chart

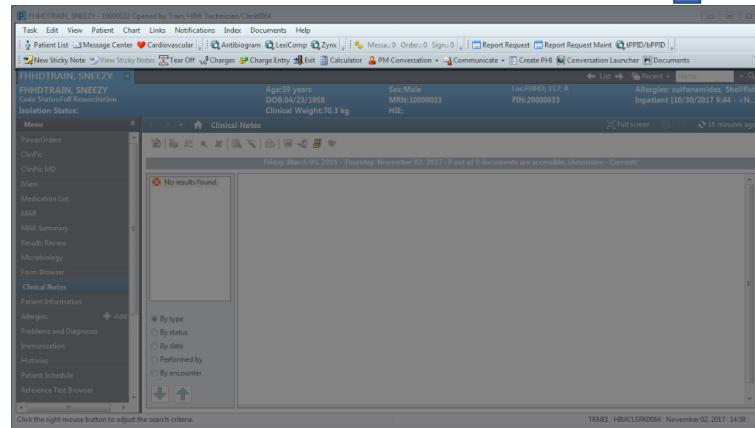

- Double click on patient name to open chart then establish a relationship in the pop up box (student)

- Once in the patient chart, ensure your name is shown on the top. See example to the right.

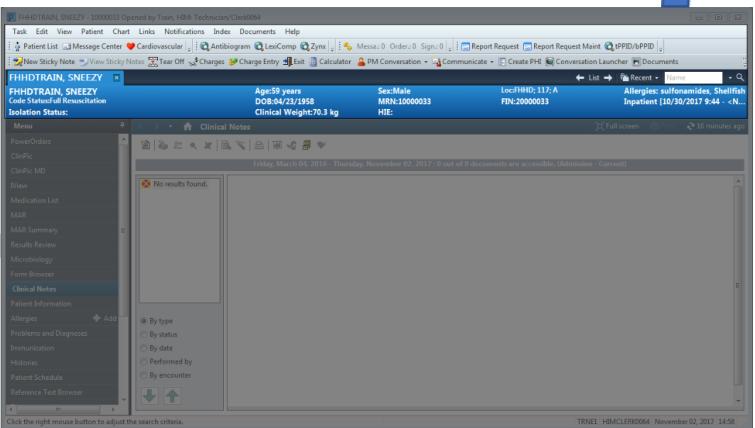

# Overview of Chart

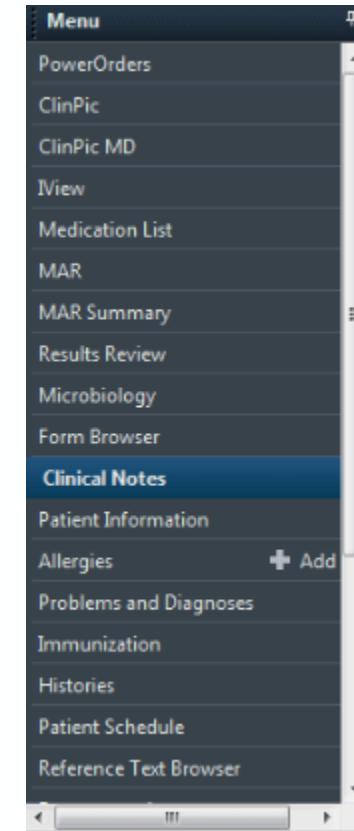

## Gray tool bar:

- Medication Administration Wizard (used to scan meds)
- Exit door- proper way to log out of chart
- Calculator-used for conversions (i.e lbs to kg)

## Blue banner bar:

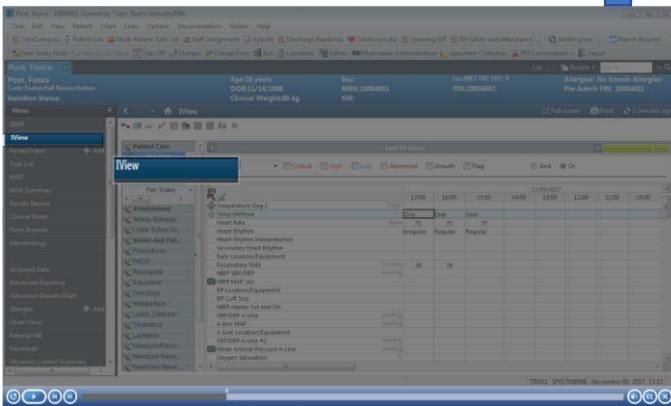

- Overview of patient information
- Example: Code status, weight, allergies

## Menu:

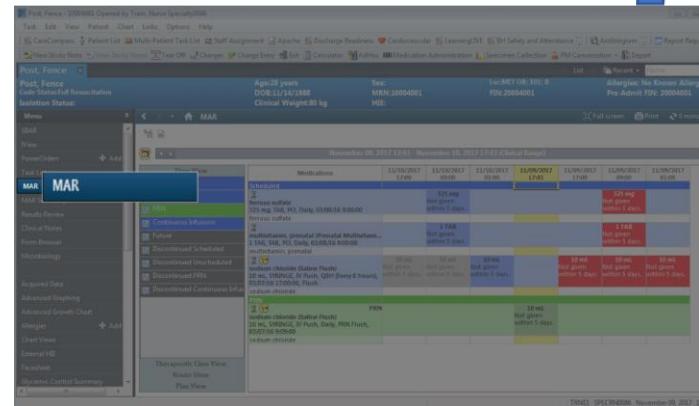

- Used to navigate through the chart
- Example: Charting, reviewing results

# Overview of Menu

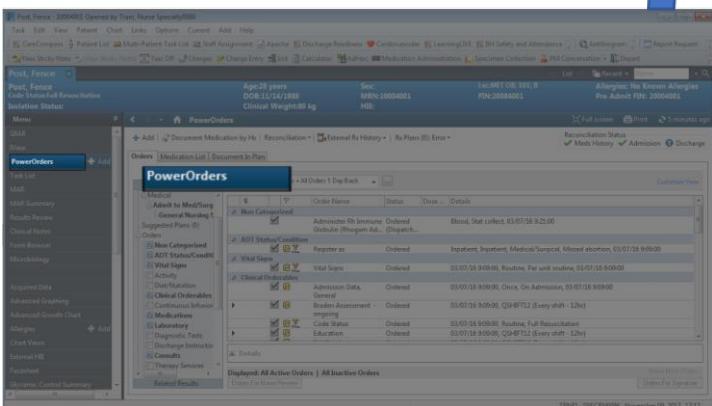

## IView:

- This is where all documentation occurs
- Example- head to toe assessment, I&O

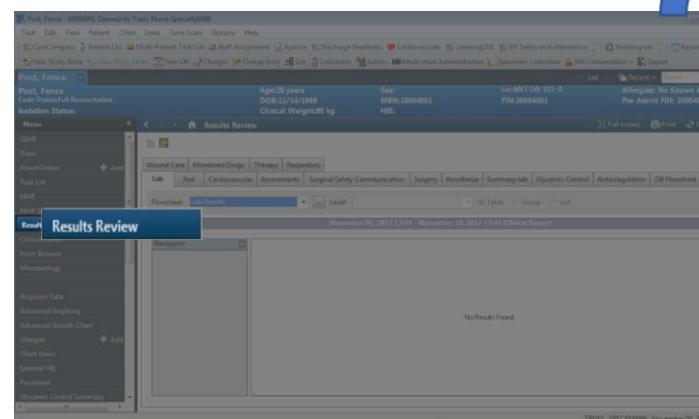

## MAR:

- This is where scheduled and ordered medications are found

## PowerOrders:

- This is where all orders and plans of care for the patient are found

## Results Review:

- This is where you can view results
- Example- labs, xray, etc

# Creating a Custom List

To create a custom patient list:

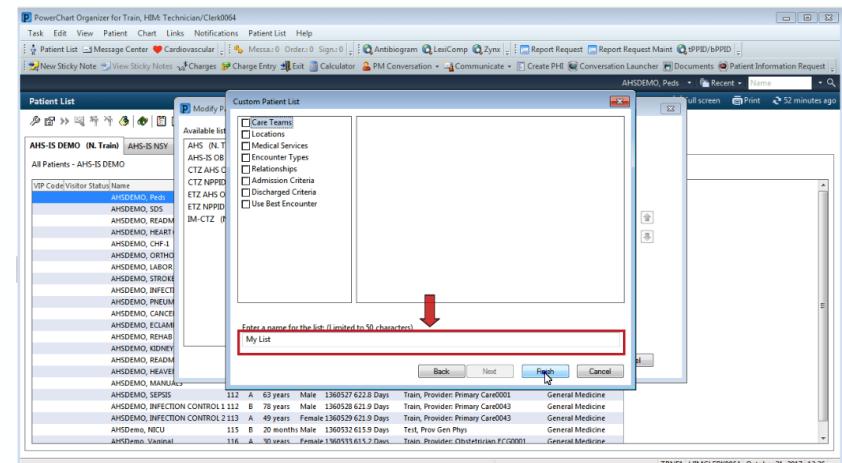

- Click on the wrench in the left side of the screen
- In the pop-up window, select the “New” button at the bottom

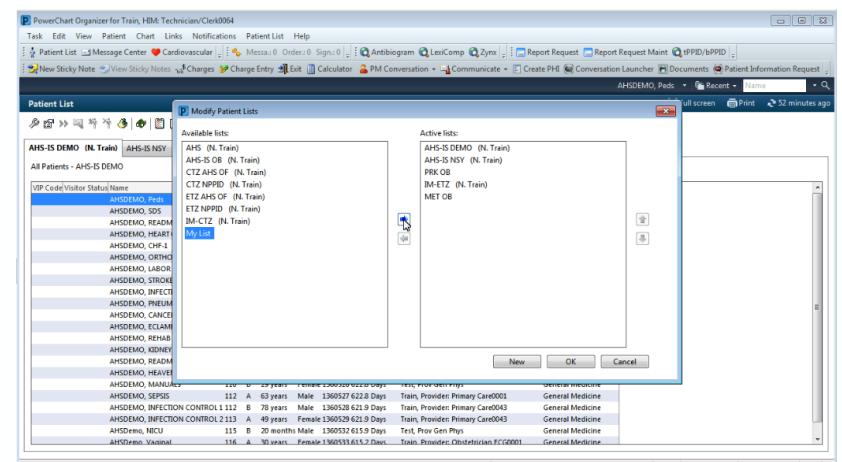

- On the next screen, select “custom” in the box
- Select the “Next” button at the bottom

- On the next screen, enter a list name in the free text bar at the bottom
- Select the “Finish” button at the bottom

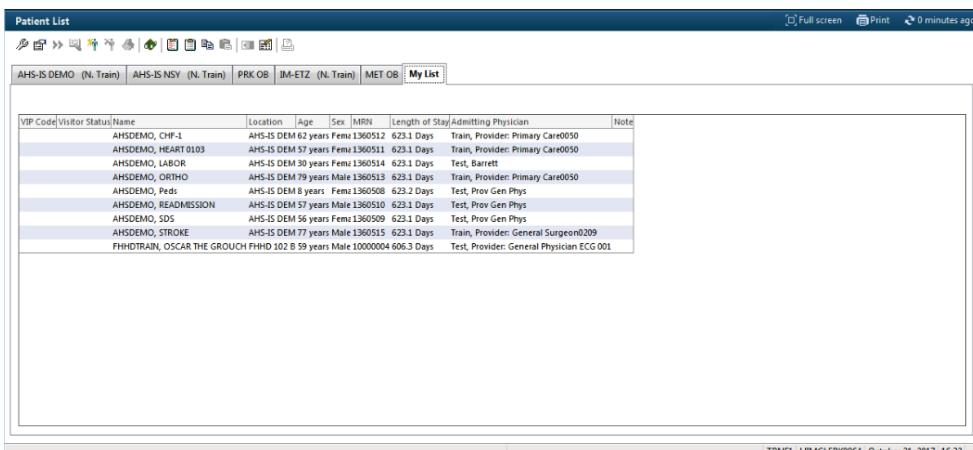

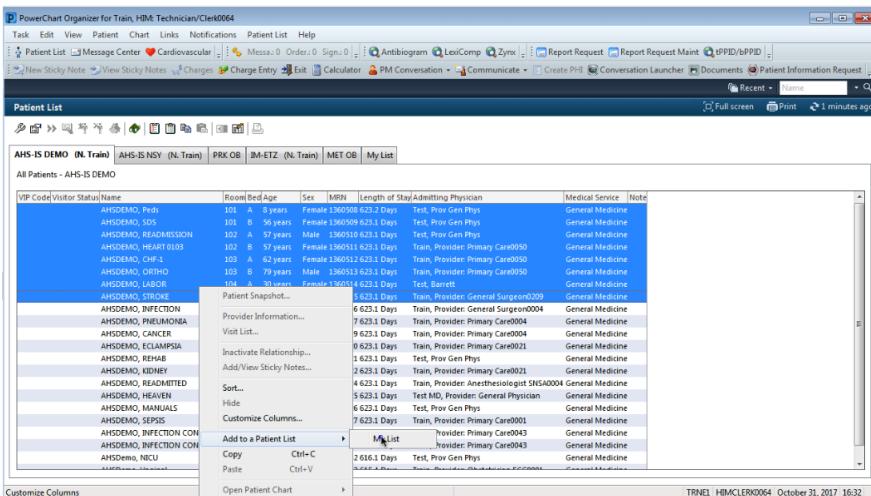

- On the next screen, highlight your list name in the left box
- Click on the highlighted arrow in the middle to move your list to the box on the right
- Select the “ok” button at the bottom

# Adding Patients to a Custom List

- Highlight the patients you would like to add to your list  
**Tip:** hold control key down to select patients that are not in a row
  - Once you have selected your patients, right click on a highlighted patient
  - Select “Add to a Patient List” and click you list name to the right

**Tip:** hold control key down to select patients that are not in a row

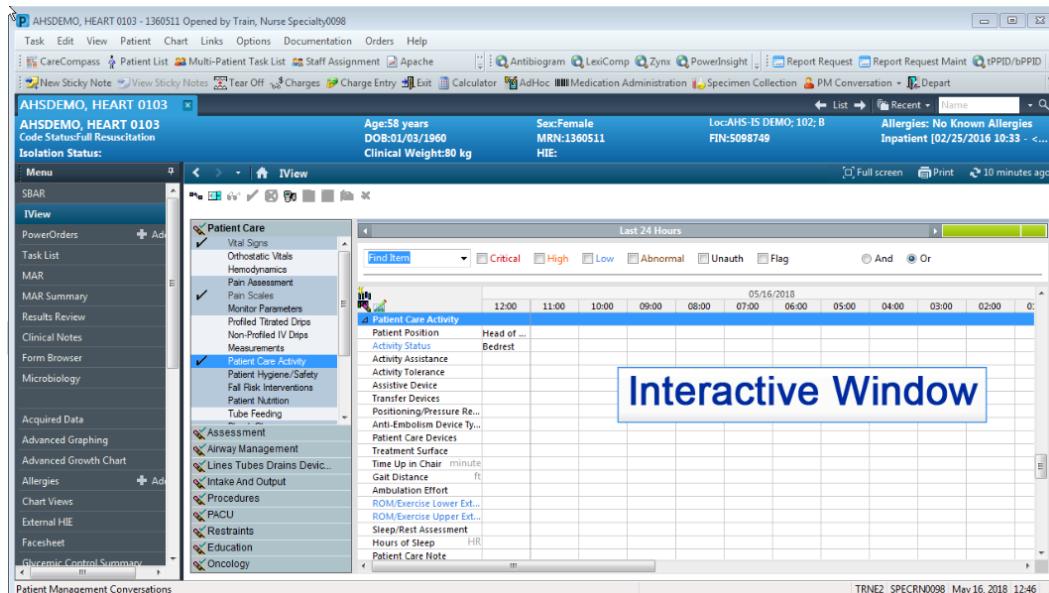

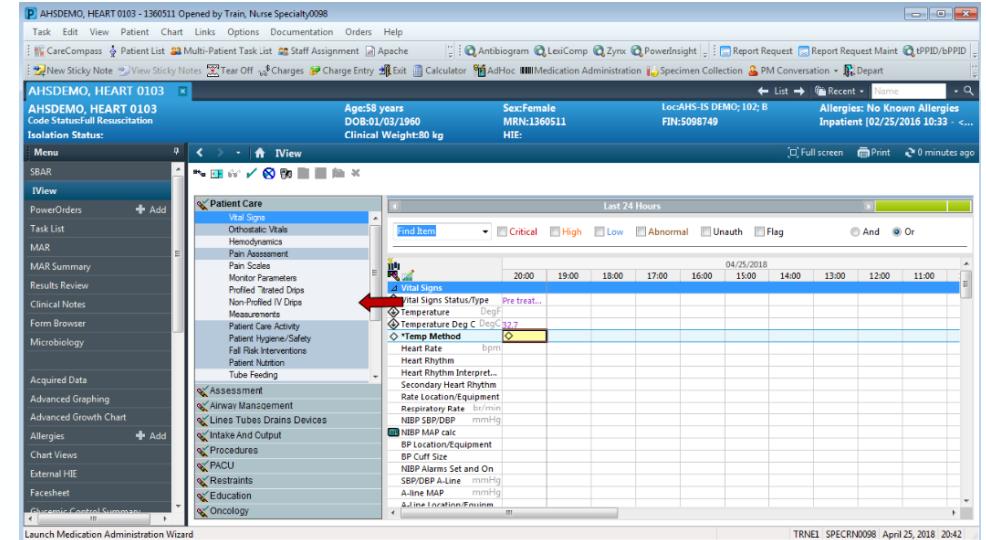

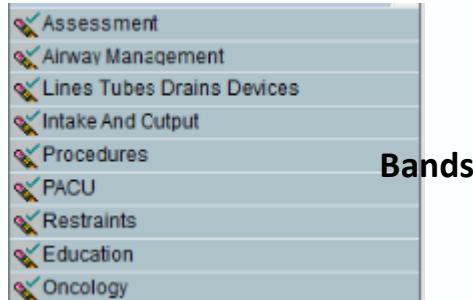

- Click on your list tab
  - Your selected patients should now appear on your list
  - If your patients did not appear, click the refresh button in the upper right of your screen

# IView

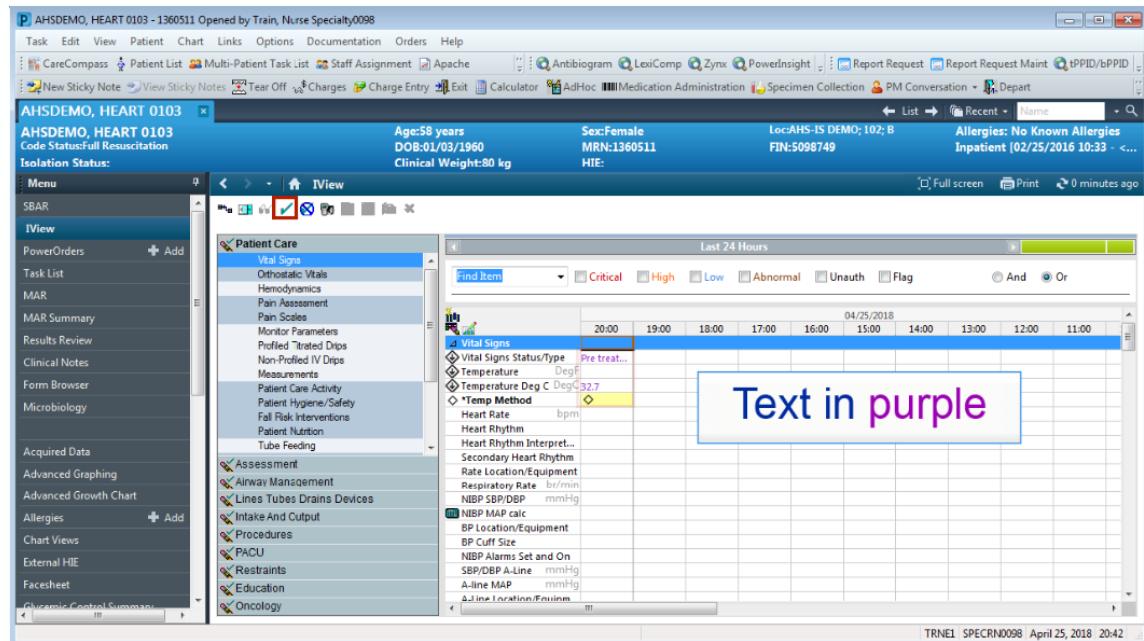

IView is where majority of the clinical documentation is completed

- IView contains *bands* which have *sections* in them

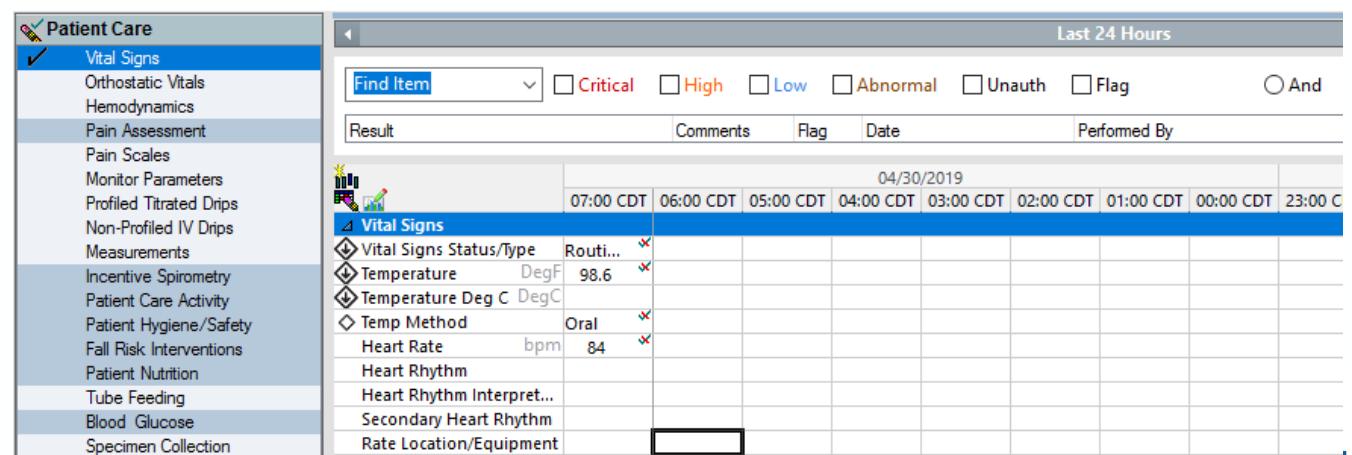

- Selecting a band or a section will open up the documentation field to the right
- The “interactive window” is where the documentation occurs
- You can open up a documentation field by double clicking on the field that you choose

# IView

- After documentation is complete, the text will be purple. This means the documentation in NOT saved
- Click the green check mark in the right upper part of the screen to save your documentation

- After the documentation is saved, a small check mark will appear
- The nursing instructor or precepting nurse will need to authenticate the documentation
- Once verified, the check mark will disappear

## Questions?

- Please reach out to the Clinical Informatics department at AdventHealth Waterman with any questions
- We can be reached at 352-253-3222
